Objective

Seeking a Data Analyst role focused on Power BI reporting and business intelligence. About 1.5 years in operational reporting and AI evaluation, with Power BI (DAX, Power Query, data modeling), SQL and advanced Excel. English: B2.

Work Experience

Junior Data Analyst

Jan 2025 – Dec 2025

Agricultural Production & Export Project (Partnership Between NCPC & Fresh Energy)

- Collected, organized, and maintained daily operational and production data.
- Prepared performance reports and progress summaries for management and stakeholders.
- Tracked KPIs and compared actual results against targets and operational plans.
- Generated executive summaries to support decision-making processes.
- Monitored agricultural production and export operations through data reporting and analysis.

Autonomous Vehicle AI Evaluator

June 2024 – Oct 2024 (5 months)

Outsource company for Cruise Autonomous Vehicles USA - Micro Engineering Egypt (MEEG)

- Evaluated autonomous vehicle driving scenarios for AI training and validation.
- Compared autonomous driving model behaviors based on traffic law compliance and safety standards.
- Identified risky driving patterns, unsafe decisions, and rule violations in AV simulations.
- Contributed to improving AI model performance through human feedback and scenario analysis.
- Reviewed lidar/radar-based driving cases and assessed vehicle behavior accuracy.
- Assisted in validating autonomous driving AI systems used in self-driving vehicle projects.

Web Development Projects

1- Learnora (Vocabulary Learning App)

Full-stack vocabulary learning app with spaced repetition, mock exams, personal word lists, bilingual RTL interface and PDF export. Built with Next.js 15, React 19, TypeScript, Tailwind CSS 4 and Prisma/Neon Postgres, deployed as a Docker container on Render.
Live App: learnora-zhj6.onrender.com

Data Analysis Projects

1- Call Center Performance

Tracked key KPIs including SLA compliance, efficiency, abandoned calls, answer rate, and handling performance.
GitHub: github.com/Mohamed-025/call-center-performance-dashboard | Live dashboard (Power BI)

2- Sales Dashboard

Monitor sales performance, profitability, customer segments, shipping methods, and regional trends. Visualizations and KPI tracking for sales, profit, and quantity analysis.
GitHub: github.com/Mohamed-025/sales-performance-analysis | Live dashboard (Power BI)

3- HR Analysis

Analyze employee attrition and workforce behavior across multiple dimensions. Developed KPIs such as attrition rate, total employees, average age, and gender distribution to support HR decision-making.
GitHub: github.com/Mohamed-025/hr-analytics-dashboard | Live dashboard (Power BI)

4- E-Commerce Performance

Cleaned, transformed, and structured raw sales data from multiple sources including customers, products, branches, and payment methods.
GitHub: github.com/Mohamed-025/E-commerce-Sales-Analysis

Technical Skills

Data Analysis: Data Analysis & Reporting; Microsoft Excel (Advanced); Power BI (Dashboards, Data Modeling, DAX & Power Query); SQL & Python (Data querying & analysis); ETL processes (Data cleaning & transformation); AI Model Evaluation & Data Annotation

Web Development: HTML5, CSS, JavaScript, TypeScript, Tailwind, React.js, Redux Toolkit, Next.js; Git & GitHub; PRDs for structured and guiding AI tools; MVP architecture planning

Tools: Microsoft Word, Excel, Power BI, Looker; Jira, Trello, Notion and Slack; Adobe Photoshop, Adobe Premiere Pro

Extracurricular Activities

Graphic Design Committee Member, Basira March 2022 – October 2023
Benha University. Contributed to publishing up-to-date medical news.

Content Writing and Graphic Design Committee Member, FAO-Model December 2021 – August 2022
Cairo University. A student activity that simulates activities of the FAO organization.

Programs

InnovEgypt program (ITIDA & Tiec) Jan 2026 – Feb 2026
Completed a 45-hour innovation program by Innovate Egypt focused on entrepreneurship, creativity, and startup development. Collaborated with a team to develop and present a final project for a potential startup while enhancing innovation, problem-solving, and business development skills.

Participant, Super Student Activity - Cairo University
Developed skills in HR, Marketing, Sales, Supply chain, PR, CV writing, writing a business model, MOOCs, researching and more.

Education

Bachelor's degree, Cairo University 2020 – 2024
GPA: 3/4

High school 2017 – 2020
GPA: 91%

Languages

Arabic, English
